Vitali Shvaichuk

Fullstack Developer (Java/Javascript)

📍 Brest, Belarus

Programming has been my passion for many years. I enjoy development process and always intend to build up professional skills. I have strong knowledge of Java Core and experienced in Spring-based applications development. I have a good knowledge of HTML, CSS and Javascript basics as well. I have been learning popular frontend frameworks since 2022 and now have some practical experience in developing single-page applications.

Education
